3D ULTRA CLEAN

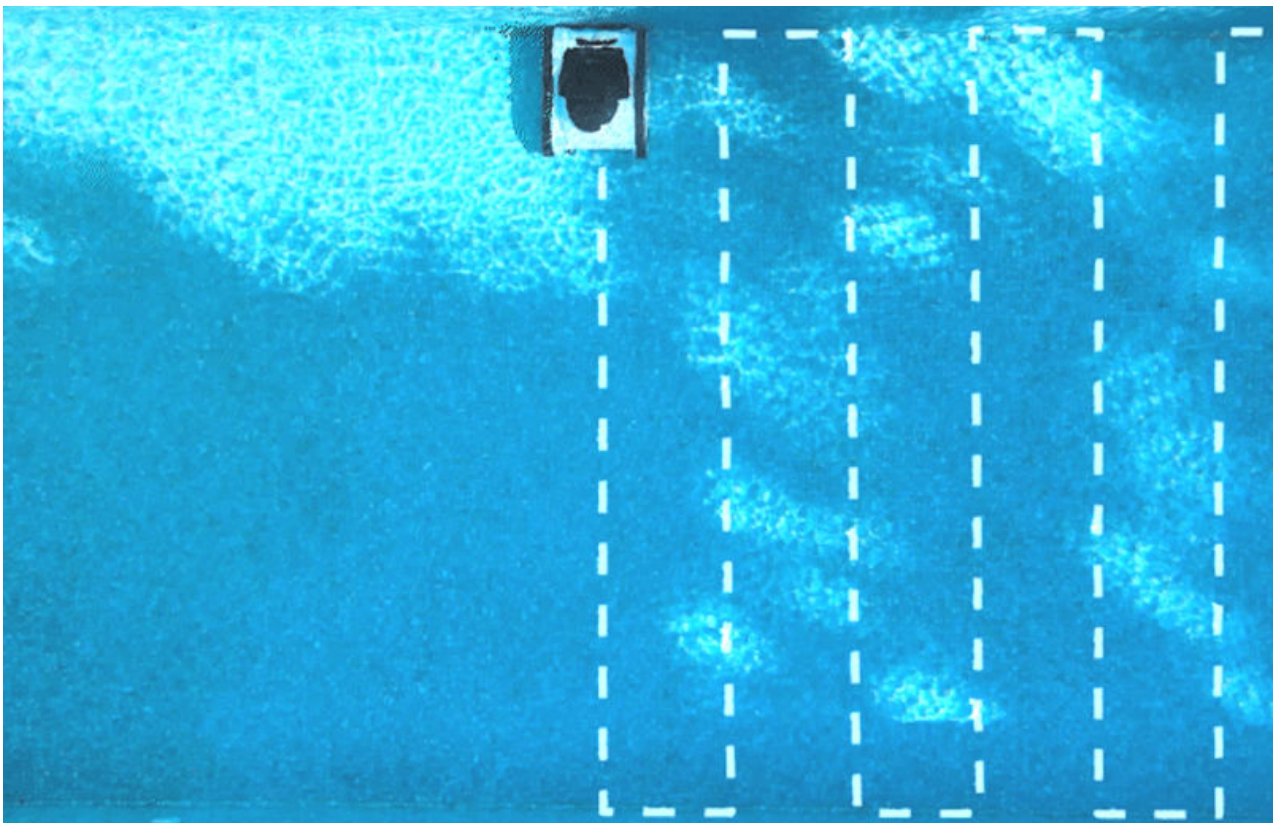

# Breakthrough Tech Breakthrough Freedom

Simply set the cleaning task and mode on the App of 3D Ultra Clean, the wireless pool cleaning robot with the longest endurance promises to keep your pool clean for up to 2 weeks with just 1 charge.

# Intelligent 3D S path \*patented

With the advanced control system, 3D Ultra Clean analyzes the pool environment and plans the most efficient cleaning path, **saving you 60% cleaning time!**

# AI Mode for Vacation

The original AI mode allows the users to charge 1 time for 2 weeks using & plans the cleaning cycle. Even if the owner goes out travelling, 3D Ultra Clean, your reliable wireless pool cleaner, can still keep your pool automatically with a crystal-clean water at the pre-set cleaning time.

Thanks to the original Full-inverter technology, the inside DC-Inverter motors run at 20%-100% (averagely<50%) under the precise control of advanced algorithms, which brings the longest endurance and life span than ever.
