SPA2.ME PRO

Revolutionary AI-Wireless Technology

The SPA2.ME PRO is an innovative robotic pool cleaner that eliminates the need for manual cleaning.

Powered by revolutionary AI wireless technology, it delivers up to four hours of intelligent, efficient cleaning per charge for a superior pool care experience. Enjoy complete command with manual remote control, targeted spot cleaning, and convenient automation like auto poolside parking and task resume.

A detailed view of the SPA2.ME PRO pool cleaner. It is a dark blue, cylindrical device with a textured, tread-like surface. Two transparent tubes are visible on top, showing internal components. The device is shown cleaning a light blue pool floor with some debris. The background is a gradient of blue and teal.

SPA2.ME PRO

Groundbreaking Technology - Freedom

This powerful pool cleaner uses advanced suction and dual-scrub technology to effortlessly remove debris and leave your pool crystal clear. Its smart obstacle avoidance prevents it from getting stuck, and intuitive app control allows for customized cleaning. It efficiently cleans over 2160 ft² on a single 180-minute charge.

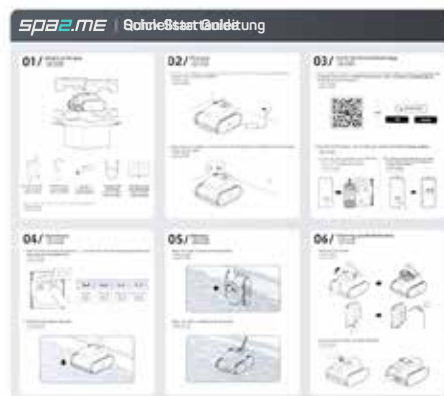

SPA2.ME Ultra Cleaning Mode With 30 m³/h

The Intelligent Pool Master delivers flawless, precision cleaning powered by advanced PoolSense™ Technology. Its shape-adaptive navigation employs optimized S-pattern and N-pattern routes to thoroughly clean every inch of your pool—from the floor and walls to the steps and waterline. This ensures complete, professional-grade results across all surfaces.
